FOR IMMEDIATE RELEASE

Interstate 80 Striping Will Prompt Lane Closures

Solano County – Beginning on the night of Tuesday, June 23 the California Department of Transportation (Caltrans) will conduct additional rolling lane closures along eastbound Interstate 80, from east of the North Texas on-ramp in Fairfield to east of the Leisure Town Road exit in Vacaville.

The rolling closures will enable crews to begin final striping on this segment of the I-80 pavement rehabilitation project.

The closures will start at 9 p.m. and end at 6 a.m. each morning, and will continue Sunday to Friday nights through the week of July 10th. However, there will be no work on the two nights preceding July 4th.

On the night of Wednesday, June 24 Caltrans also plans to begin the first phase of paving in the westbound direction of I-80 between Alamo Creek in Vacaville and the North Texas Street off ramp in Fairfield.

This project, scheduled for a Fall 2009 completion, is one of four ongoing projects along the Interstate 80 corridor in Solano County.

Other projects include an 8.7 mile long carpool lane project in Fairfield; an ARRA-funded project to rehabilitate four lanes of I-80 in the Fairfield area and work on the freeway's mainline between the American Canyon Overcrossing and Green Valley Creek.

Most of the construction work on I-80 is at night, prompting rolling lane closures. Motorists are advised to use caution when traveling through construction zones and to "Please Slow for the Cone Zone."

More information on I-80 projects in Solano County is available at www.Pave80.com.
